Profile

I am a student of **University of Regina** who has done an undergraduate diploma in Computer Science. I am seeking a new job opportunity either full time or part time. I am reliable, hard-working, a fast learner, friendly with great sense of humour. I can work independently and am willing to learn new things. **Even if I do not possess much experience, I am capable of giving my hundred and ten percent after getting training.**

McDonald's

I started working in MacDonald's as crew member which involves working in the front as cashier, taking orders, dealing with cash and providing customer service at my best. After some time, I was promoted as Guest experience leader because of my leadership qualities, pressue handling capability, creative thinking and decision making ability.
